

## Ultimate full feed pellet for broodmares, breeding stallions, weanlings and yearlings

The birth weight and strength of the new born foal is largely determined by the quality of the mare's nutrition. Once born, the foal must receive the best quality nutrition from the mare's milk in order to sustain its growth and remain strong. And that's not forgetting the mare. She needs to maintain peak nutrition in order to produce her milk and remain in condition.

Barastoc Breed N Grow is the 'cornerstone' feed for horse breeders. A highly palatable pellet formula, it is ideal for paddock feeding and has the advantage of no powders or waste. It contains high quality protein from soyabean meal plus added amino acids to support growth rates in young horses. There are also enhanced levels of macro and trace minerals to support bone growth and development and added silicon for improved bone density.

Barastoc Breed N Grow is also an ideal conditioning feed for stallions prior to and during the breeding season.

Product number: 8501020

### FEEDING DIRECTIONS

Horse Weight (kilograms)	Growth Stage	Feeding Rate (kilograms/day)
100 to 200	Creep feed foals 2 to 5 months of age	1.0 to 2.0
200 to 300	Weanlings 5 to 12 months of age	2.0 to 3.0
300 to 400	Yearlings 12 to 18 months of age	3.0 to 4.0
500	Pregnant mares last 3 months	5.0 to 6.0
500	Lactating mares first three months	5.0 to 6.0
500	Breeding stallion	2.0 to 5.0

### ANALYSIS (AS-FED)

Crude Protein (minimum)	17%	Phosphorous (minimum)	0.7%
Crude Fat (minimum)	4%	Vitamin A (added)	10500IU/kg
Crude Fibre (maximum)	15%	Vitamin E (added)	100mg/kg
Selenium (added)	0.5mg/kg	Digestible Energy (estimated)	12.5MJ/kg
Calcium (minimum)	1.2%		
Calcium (maximum)	1.3%

### INGREDIENTS SELECTED FROM THE FOLLOWING:

Cooked cereal grains, grain by products, vegetable protein meals, vegetable oil, molasses, lysine, KER vitamin and mineral premix, bioavailable silicon, minerals and salt.

# BARASTOC

## BREED N GROW

**FEED STYLE:** Pellet

**ENERGY RATING:** ●●

**HEAT RATING:** ●●

### KEY FEATURES:

- Highly palatable pellet formula. No powders or waste. Ideal for paddock feeding.
- Contains high quality protein from soyabean meal.
- Added amino acids to support growth rates in young horses.
- Enhanced level of macro and trace minerals to support bone growth and development.
- Added silicon for improved bone density.
- Ideal conditioning feed for stallions prior to and during the breeding season.

### ALTERNATIVE PRODUCTS:

If a more concentrated feed is required (less than 2kgs per day) consider **Barastoc Endurance** (muesli feed).
