

A protein and mineral supplement for horses

When they are being spelled, horses depend completely on pasture for nourishment. However, pasture is often not sufficient to provide horses with everything they need - particularly in terms of proteins and minerals.

Fortunately you don't need to take risks with your horses when they're in the paddock. Barastoc Horse Block is the ideal solution for times when pastures are not of optimum quality. A protein and mineral supplement for horses grazing in the paddock, Barastoc Horse Block contains all true protein from vegetable protein meals. It's safe to feed to all horses, so you can always have the reassurance that your grazing horses are not missing out.

Product number: 9000220

FEEDING DIRECTIONS

Provide one block for up to 10 horses and replace as necessary.
Usual intake: 100 to 300 grams per head per day.
Remove block from packaging prior to feeding.
